## Andrea Jegher

[My Area](#)[My Services](#)

### About Andrea...

Andrea holds a Master's Degree in Computer Science and Engineering from Politecnico di Milano, where for his thesis he designed and developed a distributed system for identifying malware within web pages. During university, he participated in CTF competitions with the "Tower of Hanoi" and "mHACKeroni" teams.

As a Security Engineer, he mainly carries out penetration testing and security assessment activities. His main interests are the analysis of web platforms and software development.
